Podcast

pod·cast

/pædkast/

noun: podcast; plural noun: podcasts

Origin: early 21st century: from iPod + broadcast.

a digital audio file made available on the Internet for downloading to a computer or portable media player, typically available as a series, new installments of which can be received by subscribers automatically.

Popular Aviation Podcasts

Airline Pilot Guy

- <http://airlinepilotguy.com>
- Jeff Nielsen is a captain for a major US-based legacy airline who releases a new podcast episode roughly once a week.
- Captain Jeff typically records episodes of Airline Pilot Guy from his hotel room while he is on a layover between flights
- Most episodes start with a bit of aviation news, which is accompanied by his professional analysis.
- Captain Jeff encourages his listeners to submit feedback and they do in droves. Some submit questions about airline and aircraft operations for him to answer.
- Most shows run 1.5 to 2.5 hours.

Never Again!

- <https://itunes.apple.com/us/podcast/aopa-never-again/id290618642?mt=2>
- AOPA presents the "Never Again" series in AOPA Pilot magazine and online to allow pilots to learn from the experiences of others.

Simple Flight Radio

- Since August, 2012, Al Waterloo and Marc Epner have been connecting their listeners with the people that are taking aviation to new heights.
- Whether its innovation in technology, training, or community outreach, Al and Marc bring their own special style, passion, and contagious enthusiasm to ensure general aviation regains and retains its place among the greatest industries in existence.

The UAV Digest

<http://theuavdigest.com/>

- Made its debut on August 9, 2013.
- Each week we look at military applications, commercial applications, and even homebuilt applications.
- The UAV Digest was created by David Vanderhoof and Max Flight as a spin-off from the Airplane Geeks podcast.
- Most shows run 30 minutes

Aviation Careers

- This podcast is for those interested in discovering more about the many careers in aviation.
- Hosted by Carl Valeri

Airplane Geeks

<http://www.airplanegeeks.com/>

- Bringing you aviation greatness since 2008 with commercial, military, and general aviation guests and conversation.
- Hosted by Max Flight, David Vanderhoof, and Rob Mark
- Episodes typically have a number of segments, which can include the week's aviation news and events, the conversation with our guest, an aviation history segment, reports and interviews from our global contributors, and feedback from the Airplane Geeks™ community.
- Most shows run 1.5 hours

<http://www.podcasts.com/paxex-podcast>

- Airlines know they must keep pace with the demands of these tech-savvy, always connected travelers in order to stay relevant.
- Hosted by industry expert Mary Kirby and aviation veteran Max Flight,
- Featuring interviews with thought leaders in the space; addressing everything from the latest changes to loyalty programs, airport services and amenities to innovations in onboard seating and interiors, inflight connectivity and entertainment and the overall cabin environment.
- Plus, we'll look at how social media, multimedia marketing and mobile applications are having a profound impact on #PaxEx.

Warbird Radio

<http://www.warbirdradio.com>

- The world's first radio station devoted to military aviation.
- WarbirdRadio.com's goal is to preserve the stories and history of the brave men and women who flew these airplanes' and still do.
- Warbird Radio will keep you briefed on the latest happenings.
- following restoration projects worldwide and the latest in cutting-edge military aviation technology.
- The stories these airplanes tell are like no other and we can't wait to bring them to you.

Airspeed

<http://airspeedonline.com/>

- Hosted by Steve Tupper, aka Stephen Force
- Mr. Tupper is an aviation and technology attorney, pilot, musician, aspiring filmmaker, and airshow performer.
- Though the content of Airspeed can vary somewhat (including the very occasional non-aviation episode), the content offered is always top notch.
- Many episodes offer a spoken narrative to go along with recorded audio content.
- A few are interviews of people with inside knowledge of interesting aviation bits.
- However several of the fan-favorites are works of poetry and prose crafted by the host himself.

Plane Crazy

<http://www.planecrazydownunder.com/>

- Australia's Aviation Show
- Plane Crazy Down Under has been producing content since July 2009.
- The goal of the show is to boost awareness of aviation within the Australia/Pacific region and spread the message to people that flying is fun and achievable.

Stuck MIC

<http://stuckmicavcast.com>

- The Stuck Mic Avcast is the podcast about ‘learning to fly, living to fly, and loving to fly.’
- The panel of five consists of two airline pilots and 3 general aviation pilots.
- There are two categories of episodes produced:
 - The core episodes are released twice a month, while special episodes are occasionally released in between. Many of the core episodes involve one or more of the hosts presenting individual topics of interest.
 - The remainder usually has a guest with whom the hosts have a discussion with, usually about a single topic. Look for the core episodes on the first and fifteenth of the month. The special episodes on the other hand are typically one member of the panel doing an interview in the field.
 - These are denoted in the feed with an “A” after the number of the most recent core episode.
- Look to spend about an hour with the core episodes, while the special episodes clock in at about 20 minutes each.
- Finally, co-host Carl Valeri also hosts the Aviation Careers Podcast, a show of his own focused on various careers in the world of aviation.

IFR Communications

<https://player.fm/series/ifr-flight-radio-show-ifr-flight-radio>

- Your questions asked and answered about how to communicate with ATC while flying IFR. The show is hosted by former fighter pilot, former corporate pilot, current airline pilot, and author of 3 books on ATC communication, Jeff Kanarish.

Radar Contact

<https://itunes.apple.com/us/podcast/radar-contact/id578704049?mt=2>

- Whether you are an experienced pilot, a new pilot, or a student pilot, Radar Contact is your source for pilot-to-air traffic control communication.
- Real-life stories, how-to, tips, tricks, and quizzes.
- What to say, and how to say it when working the ATC system in VFR or IFR flight.

IMC Club

<https://itunes.apple.com/us/podcast/the-imc-radio/id469549439?mt=2>

- "Plane Talk" is the only talk show in the world exclusively dedicated to the General Aviation and community of pilots.
- It is hosted by Jon King Roberts - private pilot, musician, entertainer and Radek Wyrzykowski - Certificated Flight Instructor whose instruction is focused on aviation safety and pilot proficiency.
- During program we present hosts' opinions and commentary about current General Aviation issues and news events with some dose of humor.
- We also explore all aspects of flying, aviation training, proficiency and safety.
- We have remote guests from different fields of aviation including expert flight instructors.

Uncontrolled Airspace

<http://www.uncontrolledairspace.com/>

- Every week the UCAP gang gathers in the virtual hangar to talk about all things GA.
- You can listen-in as some of General Aviation's most knowledgeable, opinionated, and plain-speaking characters, do some online hangar-flying.
- Most shows run 1 hour
- Features Jack, Dave, and Jeb
